- TMC !

The GNS FM9 RDS TMC adapter is a FM receiver with RDS/TMC ability.

With this new adapter GNS extends its successful product portfolio. As world-wide the first enterprise developed the company from Germany TMC- and GPS/TMC receivers, which are used for portable dynamic navigation equipment.

The GNS FM9 extends mobile navigation systems with integrated GPS receiver with RDS/TMC functionality. With help of the GNS FM9 the received traffic messages are through-handed to the navigation software, these can again compute an alternative route with consideration of the new traffic conditions and avoid the traffic jam.

Compatible with CTFPND-1 V3 (Mini-USB)
NOT compatible with PC ! Use [this adapter](#) instead.

Scope of supply :
1x GNS TrafficBox RDS TMC receiver for CTFPND-1 V3
1x Antenna with 2.5mm jack connector

This TMC receiver can also be used to receive commercial Pay-TMC-services. But please keep in mind that your GPS/TMC-software also needs to support the service you want to use.

GNS TMC solutions are compatible with commercial services
